Kike Tordera

UX Engineer & Software Developer

Enthusiastic and detail-oriented UX/UI and Software Development Specialist with a robust background in creating intuitive, user-centric interfaces and innovative software solutions. Proficient in a range of modern development tools and languages, with a keen eye for design and usability. Demonstrated ability to translate complex requirements into functional, aesthetically pleasing applications.

WORK EXPERIENCE

Freelance Chief Technology Officer
April 2020 – Present
Totem Studio, Berlin, Germany

- Overseeing the development of web and mobile applications, ensuring high standards of code quality and project management.
- Managed a team of developers, collaborated with clients for requirements, and supervised project launches.
- Played a pivotal role in delivering top-tier products to clients, leveraging strong communication and leadership skills.

Senior Mobile Developer
August 2022 – September 2023
Circus Kitchens, Berlin, Germany

- Spearheaded frontend development for a popular app using Flutter, ensuring seamless performance and user experience.
- Managed product maintenance and implementation of new features, adapting to expanding user bases in new locations.
- Optimized app performance for a growing international audience, contributing to the app's success and scalability.

Senior Mobile Developer
January 2021 - February 2022
Oculid, Berlin, Germany

- Led mobile app development focused on tracking users' eye movements, significantly enhancing UX analysis and testing.
- Integrated machine learning for advanced data visualizations like heat maps, providing deep insights into user-product interactions.
- Played a key role in refining UX/UI designs, improving user satisfaction and engagement through data-driven strategies.

Full Stack Developer & UI Designer
June 2018 - June 2020
Value Villages, Turkana, Kenya

- Developed comprehensive software solutions for NGOs, focusing on vocational training and poverty alleviation.
- Designed user-friendly UI and implemented full-stack solutions, empowering individuals through technology and knowledge.
- Instrumental in advancing NGO missions on the ground through technology-driven solutions and intuitive design.

- Conflict Resolution
- Negotiation
- Strategic Planning

Mentor Web Development & UX/UI Design   February 2018 - June 2018

Learning Lions, Turkana, Kenya

- Created educational modules and provided mentorship in web development and UX/UI design to students in a volunteer capacity.
- Introduced innovative tools and workflows, enhancing the organization's services and internal operational structure.
- Fostered a technology-forward learning environment, contributing to the professional growth of students in web development.

Front End Developer   September 2017 - Nov 2017

Universitat Politècnica de València (UPV), Valencia, Spain

- Key contributor to updating and maintaining the university's website with a focus on front-end development.
- Implemented HTML content and ensured consistent formatting and visual accuracy using HTML/CSS.
- Ventured into video editing for educational content, enhancing the school's digital learning resources.

iOS Developer   July 2016 - September 2016

CodeWell, Skopje, Macedonia

- Specialized in iOS development using Xcode, Swift, and Objective-C, contributing to high-profile projects like the 'Summer Ohrid Festival' app.
- Utilized technologies like Google Firebase, CoreData, and third-party frameworks to enhance app functionality and user experience.
- Collaborated in a multicultural team, enhancing teamwork and communication skills while delivering high-quality iOS applications.

Android Developer   July 2015 - September 2015

Mongolian University of Science and Technology, Ulaanbaatar, Mongolia

- Refined Android development skills, focusing on Java applications for Android platforms in an educational setting.
- Created a REST client for efficient data exchange, integrating sensor systems for real-time access and global monitoring.
- Crafted user interfaces and visualized sensor data through graphical representations, enhancing user interaction and data comprehension.

EDUCATION

Polytechnic University of Valencia
Bachelor's degree in Computer Science
Valencia, Spain.   2012 – 2016
Gained proficiency in software development, mastered data structures and algorithms, and explored emerging computing technologies, boosting problem-solving and technical skills.

Czech Technical University in Prague
Specialization in Software Engineering
Prague, Czech Republic   2016 – 2017
Specialized in Software Engineering at Czech Technical University in Prague, focusing on advanced programming, software design principles, and project management methodologies.
